

PROFILE

I am a Fullstack Web Developer with a knack for rapid and adept website development. I have successfully delivered multiple projects utilizing essential frameworks and libraries, such as Next.js and React.js. Additionally, I have enhanced my technical skills through the Full Stack Software Engineering Bootcamp at Revou, where I gained hands-on experience in developing robust web applications. With over 4 years of experience in business management as the Assistant Head of Branch at PT Sriwijaya Artha Boga, I implemented business strategies that resulted in a 10% revenue growth. I am committed to integrating innovative solutions into my web development projects, leveraging my business acumen to enhance user experience and client satisfaction.
