Working Experiences

Assistant Head of Branch, PT Sriwijaya Artha Boga

October, 2019 – March, 2024

- Led **business strategies** that boosted revenue by 10% and expanded market presence.
- Managed **branch operations** with a 98% inventory accuracy rate and 100% regulatory compliance.
- Oversaw **branch finances**, including managing a budget, and optimizing cash flow to support operational and strategic goals.

Software Engineer, PT Timur Usaha Mandiri

November, 2024 – July 2025

- Developed **websites** for schools and companies (JNY, Sekolah Permata Harapanku, Paragon Malaysia School, AXIA, BPR, BNN, IIBN Batam).
- Built scalable full-stack systems using **Laravel (backend)** and **Vue.js (frontend)**.
- Improved system performance, implemented **secure authentication**, and automated workflows.
- Collaborated with cross-functional teams to deliver user-friendly solutions for corporate and education clients.

Project Manager, PT. Kanalia Kunci Komunikasi Kreatif (Freelance)

Jul 2025 – October 2025

- Managed end-to-end delivery of **marketing and brand activation** projects, covering event organizing, social media strategy, and paid advertising.
- Collaborated with clients, vendors, and internal teams to ensure smooth execution and alignment with **campaign goals**.

Insurance Consultant , Allianz

October 2025 – August 2026

- Managed and developed relationships with prospective and existing clients, identifying needs and providing tailored financial protection solutions.
- Developed **strong communication**, negotiation, presentation, and relationship-management skills through direct client engagement.
- Managed a personal prospect pipeline and consistently followed up across multiple stages of the client acquisition process.
- Worked in a highly target-driven environment, requiring discipline, resilience, self-management, and adaptability.
- Collaborated within a team environment and participated in training and development activities focused on sales, leadership, and business development.

Fullstack Web Developer Intern, Universitas Multimedia Nusantara

August, 2023 – January, 2024

- Designing website using **ReactJs** and **Laravel** for an e-commerce platform.
- Designing and developing **sitemaps** and **flowcharts** to support the system development process.
- Developed an integrated **e-commerce** solution, implementing **AHP** and **SAW** algorithm as recommendation systems.
- Integrating **blockchain smart contracts** for wallet and file storage.

Assistant Laboratory, Universitas Multimedia Nusantara

January, 2024 – June, 2024

- Tutored 30+ students in the Introduction to Internet Technology course, resulting in a 20% improvement in average grade.
- Taught website development using **HTML**, **CSS**, and **JavaScript**, helping students build 15+ fully functional website.
- Provided guidance on building web applications with **ReactJs**, enabling students to complete 10+ projects, with 90% of students demonstrating proficiency in **Reactjs** by the end of the course.

Projects Experiences

MyJelly x WCC x CGV Halalku E-commerce

September, 2025

- Led campaign execution for **FMCG brands under Wong Coco Group**, including MyJelly and Nata WongCoco, with major activation initiatives during the **Festival Hari Anak (FHA)**.

OSK Japanese Green Tea

November, 2025

- Coordinated event planning, vendor management, and on-ground execution to deliver engaging brand experiences. Managed social media content planning and paid advertising initiatives to support campaign objectives and audience engagement.

Web Development Projects — Corporate & Education Clients

November 2024 – 2025

- Developed and maintained websites and web-based solutions for **JNY, Sekolah Permata Harapanku, Paragon Malaysia School, AXIA, BPR, BNN, and IIBN Batam**.
- Built scalable full-stack applications using **Laravel (PHP)** for backend development and **Vue.js** for frontend development.
- Improved system performance, implemented secure authentication, and automated business workflows to improve operational efficiency.
- Collaborated with cross-functional teams and stakeholders to deliver user-friendly technology solutions aligned with client requirements.

[Laut Lestari](#)

August, 2024

- A Community Marketplace website for exploring, buying, also to learn more about diverse range of exotic and decorative fish. Made using **Next.js** with **Typescript** as the Frontend, using **Flask** with **Python** as the Backend, **Mysql** to manage the database.

Halalku E-commerce

August, 2023

- An E-commerce recommendation website to find tourism destinations and food with halal-certified options. Made using **React.js** with **Javascript** as the Frontend, using **Laravel** with **PHP** as the backend, **Mysql** to manage the databases.

Education

Universitas Multimedia Nusantara

August, 2019 – July, 2024

GPA: 3.18

Informatics Engineering

- During my time at Universitas Multimedia Nusantara, I gained a solid foundation in software engineering and machine learning, focusing on both theoretical and practical aspects of informatics. My thesis, titled *Klasifikasi Kesegaran Daging Menggunakan Convolutional Neural Network*, involved developing a **machine learning** model using CNN to classify the freshness of meat based on image data. This project enhanced my skills in **deep learning**, **image processing**, and **Python** programming, further equipping me with the knowledge to tackle real-world problems using AI-driven solutions.

RevoU

January, 2024 – August, 2024

Full Stack Software Engineering

- Gained expertise in frontend technologies including **HTML**, **CSS (Grid, Flexbox)**, **JavaScript**, **TypeScript**, and **React** for building responsive web applications.
- Developed proficiency in backend development with **Python** and **Flask**, implementing CRUD operations and integrating databases using **SQLAlchemy**.

- Experienced in deploying full-stack applications, optimizing performance, and applying **unit testing** techniques to ensure quality.

Organization Experiences

- Fund Manager - Starlight UMN***March, 2020 – December, 2020*
- Led **fundraising** efforts, raising IDR 50 million, exceeding targets by 20%.
 - Developed **promotional strategies**, increasing event ticket sales by 30% compared to the previous year.

- Co-Founder - Bango Tribe***January, 2022 – Present*
- Spearheaded fitness programs, increasing community membership by 150% within the first year.
 - Established partnerships with local gyms, boosting event participation by 50%.

Technical Skills

- Programming Languages:** JavaScript (ES6+), TypeScript, Python, C#, Next.js
- Technologies:** Flask, Laravel, React.js, Vue.js, Node.js, React Native (beginner), TensorFlow
- Others:** Machine Learning, Deep Learning, Blockchain, Team Collaboration, Problem-Solving, Communication, Adaptability, Leadership

Certification:	1. Information Technology Specialist (HTML & CSS), Pearson	<i>February, 2024</i>
	2. TOEIC, ETS	<i>December, 2023</i>
	3. RevoU Full Stack Software Engineering Certificate of Achievement, Revou	<i>August, 2024</i>
	4. Python Developer, Solo Learn	<i>October, 2024</i>
